**SCHEDULE OF GOODS TO BE INSURED**

If you elect to insure your shipment for replacement cost, all items must be noted and valued. Items not listed on the valued inventory are not insured. Under no circumstances will coverage attach for more than the value noted. If you do not complete a valued inventory, your shipment will be covered for actual cash value, which is replacement cost less depreciation. Both options are subject to 100% co-insurance. Items grouped together are considered to be of equal value. You may attach additional pages, if necessary, to properly detail your shipment.
